

FOR A VERMONT TRAIL

Prof. Will S. Monroe of Montclair, N. J., Finances Expedition in the Green Mountains.

Montclair, N. J., Sept. 18.—Prof. Will S. Monroe of the Montclair State Normal school has made the gift of a trail to the state of Vermont. Plans were made by the Green Mountain club of Vermont to clear the noted "Long Trail" as far south as Lincoln Mountain 1916, and a small sum was raised for that purpose.

This summer, however, Prof. Monroe, who is an enthusiastic woodsman, offered to finance a trail cutting expedition and to do the work wherever the Green Mountain club thought advisable. After surveys had mapped out the route of the trail, Prof. Monroe and J. Ashton Ellis of this town, with Kerson Nurrin of New York and several other members of the Green Mountain club, proceeded from Burlington to the route of the proposed new trail.

Camp Montclair was established and for three weeks the trail cutting operations were conducted. The clubmen made good progress, despite wet weather, intense heat and black flies. At intervals throughout the summer other members of the club joined the camp and aided in the work. The clubmen sometimes had to use the cross-cut saw to cut away the fallen trees on the trail.

Prof. Monroe's gift of this valuable piece of trail is expected to be of inspirational value to all the members of the Green Mountain club, and each season will probably see some similar bit of trail perfected by the personal work of the clubmen.

LAYMEN'S CONVENTION

First in Vermont Will Be Held at Rutland.

Rutland, Sept. 19.—Bishop William Burke of Buffalo, N. Y., resident bishop of the Methodist Episcopal church, Fred B. Fisher of New York, general secretary of the laymen's missionary movement, Hubert C. Herring of Boston, chief executive of the Congregational church in the United States, P. H. J. Lerrigo of Boston, joint secretary of the Baptist Missionary societies, and W. E. Doughty of New York, educational secretary of the laymen's missionary movement, will be speakers at the three days' county convention of the laymen's missionary movement, to be held at the Congregational church here, October 15, 16 and 17. This meeting will be the first one in Vermont. Charles C. Merrill of Boston, New England secretary of the movement, is here for a month to enroll men in the cause.

Making Novel Road Test.

Driving a G. M. C. truck, equipped with Goodrich truck tires, and loaded with one ton of Carnation milk, William Warwick, accompanied by his wife and daughter, is covering the road from Seattle to New York. The trip is in the nature of a road test, as well as a demonstration of the efficiency of the truck and its tires and a test of the "keeping quality" of the evaporated milk under the unusual conditions of the journey.

Warwick left Seattle July 12th. The trip is being made under the auspices of the Seattle Chamber of Commerce, and the cargo of Carnation milk, which is to be delivered to the New York branch of the milk company, typifies one of the chief products of the Pacific coast.

BIG N. Y. STRIKE SURE

Only Hope of Averting Walkout of 700,000 Workers Now Rests in Final Appeal to Labor Leaders.

New York, Sept. 19.—After a citizens' committee had failed to effect a basis of settlement between the striking union carmen and their employers here it was announced tonight that apparently the only hope of averting a threatened sympathetic walkout of 700,000 workers set for Friday now lies in a final appeal to be made to the labor leaders Thursday. The citizens' committee will confer tomorrow with Mayor Mitchell and Oscar S. Straus, chairman of the Public Service Commission, in an effort to find some solution of the problem.

Following a conference today with the mayor and Mr. Straus, the committee visited Theodore P. Shonts, president of the Interborough and New York Railways company, and was said proposed to him a plan evolved for the peaceable adjustment of the present differences. Mr. Shonts, it was learned tonight, informed the committee that he would refuse positively to meet representatives of the strikers. He told the committee that even if he were disposed to treat with the strikers he could not do so because the 11,000 loyal employees of his companies who made possible the continuation of traffic on the subways and elevated lines, threatened to strike if he recognized the unions.

In the meantime a meeting of the central conference committee of the strikers was held tonight to count the strike vote. Ernest Bohm, secretary of the Central Federated Union, announced at the close of the meeting that communications had been received from three unorganized groups of employees in three great industries asking permission to join in the strike.

SHOOT MAN, SUICIDES.

Rose Willets of Burlington, Shoots Brother-in-law, Whom She Believed Defaming Her, Then Kills Self.

Burlington, Sept. 13.—While laboring under the delusion that her brother-in-law, John Deyette, was trying to defame her character by spreading stories about her, Mrs. Rose Willets crept up to a window in Deyette's coal office on lower Champlain street this morning and fired two bullets at the man as he sat in a chair reading a newspaper. After merely wounding Deyette slightly, the girl turned the weapon on herself and killed herself on the spot.

The two Willets girls came to Burlington from Detroit a few years ago and solicited for a booklet. Both were goodlooking and made rapid progress with their work. Lately John Deyette fell in love with one of them and married her. Mr. and Mrs. Deyette live on Monroe street, while Miss Willets resided with her mother, Mrs. Rose D. Willets, on Main street. There does not seem to have been any ground for the girl's delusion that Deyette was defaming her character. Deyette is well known here, where he is engaged in the coal business.

However, the young lady, who was 23 years of age, nursed the grievance and finally became beside herself. All that saved Deyette from death was the fact that the glass in the window of his office slightly deflected the course of the bullets which the girl fired, one bullet merely making a flesh wound in one cheek and the other grazing one leg and then dropping down in Deyette's shoe. Deyette will recover promptly. The girl died 15 minutes after turning the weapon on herself.

FELICITATE SENATOR PAGE

Congressman Greene Leads Big Auto Party from St. Albans.

Hyde Park, Sept. 14.—A delegation of 60 representative citizens from St. Albans came by auto to this place yesterday to congratulate Senator Page upon his nomination by the republicans of Vermont for another term in the United States senate. The party reached here about three o'clock in 10 machines decorated with flags and bunting. Senator Page was most happily surprised by the visit. Impromptu speeches were made by Congressman Frank L. Greene, Editor John T. Cushing of the St. Albans Messenger, Roger W. Hubbard, C. G. Austin and R. F. Drennan and others, and were feelingly responded to by Senator Page. He thanked the party for the visit and expressed his gratification over the magnificent vote given him Tuesday. Cigars, lemonade and soda were served.

Senator Page has received many telegrams of congratulation from all parts of the state, including very felicitous greetings from Governor Gates.

Weekly Report of Trade.

Burlington, Sept. 19.—Bradstreet's Vermont office reports an active demand by men's clothing and furnishing manufacturers for their product with orders ahead for several months. Manufacturers of woollens are of the opinion that many cloth makers have sufficient stock ahead on hand, though prospects of duplicable orders are believed good. In the garment specialties line an increased demand is reported, notwithstanding advanced prices. One new shirt factory is preparing for business.

Marble quarries and manufacturers are having a fair volume of business and the demand for roofing slate is about normal. Scale manufacturers and manufacturers of stone machinery and lumber novelties are well employed. Plumbing and heating contractors are having a fairly active business.

Manufacturing interests in general are having a considerable amount of business and future prospects are considered good. The scarcity of skilled and unskilled labor, however, is felt and the high prices of materials continue an important factor. Retail trade in seasonable goods is improving. Corn canners are beginning to be more active and a good corn crop is reported in many sections. Wholesale feed and produce dealers are having a fairly good business. Collections are reasonably good.

For the week one small mercantile failure is reported compared with one for same period in 1915 and two in 1914.

Second Day of State Fair.

The second day of the Vermont State fair was most successful. The weather was ideal and the crowd one of the largest in the 10 years' history of the organization. Administration headquarters gave the figures as about 15,000 attendance and 2,000 automobiles.

The racing schedule was the principal event in a long program. There were three races on the 2200 pace being eventful in two features. In this race there was a mixup in the upper turn three horses came together, two drivers being spilled and two sulks badly shattered. Luckily neither was injured and the three horses were given place.

Lady Gamage, a bay mare, that has been the favorite this season on the New England circuit, was instantly popular and while she did not win the first heat, being one of the horses in the mixup, took the three succeeding heats. Gay Petress, a bay mare, driven by H. F. Pierce, lost her driver when the three horses came together but made the entire heat without a driver, without a break and was given seventh place in the finish.

The 224 pace with seven starters went four heats. Major Dean, a Chestnut gelding, finished fourth in the first heat, but in the three succeeding hotly contested heats came in first.

A parade of prize stock took place on the track this afternoon. By good judges it is said that no better showing of Morgan horses has ever been seen on the state fair track. The cattle parade included winners from nearly every New England state and from states as remote as West Virginia.

Sugarmakers Meet

The sugarmakers of Vermont held their annual convention here today in the administration building at the commissioners' room. There was a large attendance. President Estee of the Vermont State Fair commission welcomed them as guests of the fair. The old board of officers were re-elected. Several prominent sugarmakers discussed topics pertaining to the manufacture and marketing of maple products.

The largest number of people ever enjoying the privileges of the public service building did so today, registering from cities north, south and west, from Florida to Nebraska.

WHITMAN AND BACON LEAD IN N. Y. VOTE

New York, Sept. 19.—With returns from less than one-half of the state received at 1 o'clock, Gov. Charles S. Whitman was leading Judge Samuel Seabury, his democratic opponent for the progressive indorsement for governor. Only a fraction of the 46,000 enrolled progressives went to the polls and the average of their votes was only about four to a district. The progressive vote aroused more interest among state and national leaders as it was expected that it would give some light on how the party vote would be divided in the national election. William McCombs, democratic candidate for the senate nomination, was leading his opponent, Thomas F. Conway, by more than 2 to 1.

State Senator William M. Bennett, who opposed Gov. Whitman for the republican nomination, received only 15,671 votes, compared with 87,696 for Whitman. Robert Bacon was in the lead for the republican senatorial nomination when returns had been received from 2,885 districts out of 5,719 in the state, at 1 o'clock this morning. The figures were, Bacon 70,415 and Calder 65,271.

BENNINGTON MYSTERY.

Police Investigation Into Death of William Costello Found Beside Car Track With 3 Bullets in Head.

Bennington, Sept. 17.—The police today began an investigation of the mystery surrounding the death of William Costello, a mill hand, who was found lying beside the street car track, one-half mile from his home, with three bullet holes in his head.

The positions of the wounds in the back of the head indicated that suicide was impossible, according to B. H. Stone, state pathologist, who conducted an autopsy today.

Dr. Stone expressed the opinion that the man was murdered. Costello was last seen shortly after midnight last night when he left the business district for his home. Less than an hour later his body was seen lying beside the tracks by trolleyman but they believed it a case of intoxication and paid no attention to it until midnight when an investigation showed that the man was dead.

The body was removed to undertaking rooms and no cause of death was given until this morning. Costello was 35 years of age.

Primary election passed off very quietly in this place. There was an extra large vote considering the fact that quite a good many voters in town are in other towns working. One fact was brought out at this primary, and that is, that it behooves every man who is a legal voter to see that his name is on the checklist. There were several unable to vote on this account simply because they had not looked to see if their name appeared thereon. However, these same men will have a chance to vote in November.
